SUMMARY — Highly proficient Front-End Web Developer with 8.5 years of experience in HTML/CSS, JavaScript and Angular. Skilled in translating designs into functional interfaces. Detail-oriented and collaborative, dedicated to delivering exceptional user experiences.

PROFESSIONAL EXPERIENCE

Swin Technologies Private Limited (TrusTrace) **Sep 2019 – Present**
Software Engineer (UI Engineer)

- Developed front-end interfaces for complex web applications using HTML, CSS, Tailwind CSS, SCSS, Less, Bootstrap, Angular 14+, TypeScript and JavaScript.
- Utilized Angular frameworks to create interactive, responsive, and user-friendly designs.
- Collaborated with designers and back-end developers to meet customer requirements.
- Optimized websites for speed, scalability, and cross-browser compatibility.
- Implemented user authentication, API integration.
- Resolved technical issues related to front-end development.
- Participated in code reviews, feature planning, and design reviews.
- Solid understanding of core JavaScript concepts and ES6+ features.
- Experience in consuming RESTful APIs and authentication mechanisms.
- Proficient in Git for version control collaboration.

UITOUX Solution Private Limited **Sep 2017 – Sep 2019**
Software Engineer (UI Developer)

- Collaborated with a multidisciplinary team to design and implement an interactive web application using HTML, CSS, and JavaScript.
- Created a user-friendly interface for a SaaS application, increasing customer satisfaction by 75 percentage.
- Developed mobile-responsive UI using Bootstrap and Angular JS.
- Angular JS was utilized to develop custom web applications with dynamic UI components.
- Implemented a user-friendly interface for a web-based application using HTML5, CSS3,Bootstrap JavaScript.
- Developed a design system for an enterprise application, improving user experience.

TECHNICAL SKILLS

Languages : JavaScript, TypeScript
Web Technologies : HTML, CSS, SCSS, Less, Tailwind CSS, API, JSON, Cursor AI, Claude AI, Chat GPT.
Version Control : Git, Github, Atlassion, Bitbucket, Scrum.
Frameworks : Angular, Angular Materials, Bootsrap, Nodejs, NgRx, RxJs, Tailwind CSS
Other : karma, jest (testing)
Version : Angular 14+ versions are working.

EDUCATION

Bannari Amman Institue of Technology
Bachelor of Engineering in Mechanical Engineer
Jun 2014 - Apr 2017

Certifications

- Coursera - Front-End JavaScript Frameworks: Angular
- Coursera - Server-side Development with NodeJS, Express and MongoDB

Annai JKK sampoorani ammal polytechnic College
Diploma in Mechanical Engineer - Jun 2012 - Apr 2014

Sri Ragavendra Higher Secondary School
Computer Science - Jun 2010 - Apr 2012

PROJECTS (TRUSTRACE)

SCM – Supply Chain Management

- Owned UI development of SCM workflows, including Supplier Declaration management, enabling suppliers to submit compliance, material, and sustainability declarations directly through the platform.
- Implemented responsive and scalable Angular components to visualize declaration data, supplier relationships, and traceability insights, ensuring clarity, accuracy, and usability across enterprise users.

PCM – Product Component Mapping

- Owned end-to-end UI development of the Product Component Mapping (PCM) module, enabling brands to trace tier-1, tier-2, tier-3+ suppliers across complex supply chains.
- Implemented efficient data transformation and rendering logic to handle large, nested datasets while maintaining high UI performance and responsiveness.
